THE MALAYSIAN
INSURANCE INSTITUTE

WELCOME TO THE MII ALUMNI COMMUNITY

At the Malaysian Insurance Institute (MII) we are proud of our graduates and all they have achieved in their journey with us and in their careers. The MII Alumni was formed to honour our Fellowship and Associateship of MII graduates and to bring them together to forge fellowships and to contribute to the advancement of the industry. As our Alumni member, you will be joining a community of over 400 alumni of MII. The MII Alumni is your community, and the good news is that you don't need to join. You're already in! As a Fellow, a Senior Associate or an Associate of MII you have lifelong membership in the Alumni and we work with fellow Alumni members to create ways for you to connect with your graduating classmates and all who came before you – and those who will come after.

The MII Alumni serves as a platform for active Fellow, Senior Associate and Associate member members to network and promote friendly interaction and discourse amongst insurance practitioners as well as practitioners of other professional fields. The Alumni aims to promote and enhance knowledge and practice of insurance, share technical expertise and best practices and be the voice of the industry. Join your fellow alumni and get involved by attending an event or program, connecting on social media, and much more.

Again, we welcome you and encourage your involvement in the Alumni activities and programs. We want to reach out and connect with you, no matter where you may be. Please feel free to reach out to us too for more information about the MII Alumni at membership@mii.org.my. We welcome your invaluable feedback and suggestions that will make our Alumni a success.

We look forward to your active participation in MII Alumni activities.

Thank you.

Warmest regards,

T. Sivapalan Tharmapalan
Pro-Tem President

ABOUT THE MALAYSIAN INSURANCE INSTITUTE

The Malaysian Insurance Institute (MII), founded in 1968 as a non-profit organisation, is the leading Professional Body and Education Institution for the Malaysian insurance industry. MII has over 30,000 members comprising institutional and individual members. MII provides internationally recognised qualifications in insurance, risk management, compliance and financial planning. MII is highly respected as a regional centre offering an extensive range of quality education programmes and training courses for professionals in the financial services industry. MII also supports the industry as the international examination facilitator for several international examining and certification bodies. MII aspires to be the preferred insurance institute for developing human capital and raising professional standards in the region.

ABOUT THE MALAYSIAN INSURANCE INSTITUTE ALUMNI

The Malaysian Insurance Institute (MII) Alumni was officially launched by Encik Adnan Zaylani Bin Mohamad Zahid, Assistant Governor of Bank Negara Malaysia, during the MII Graduation Ceremony held on 7 December 2019.

The MII Alumni is open to all active Fellow, Senior Associate and Associate members of MII.

The MII Alumni will serve as a platform for MII members to forge fellowships, network and collaborate to contribute to the advancement of the industry.

As a cohort of professionals, Alumni members will play the role of thought leaders for the industry, providing their insights and expertise to industry bodies on pertinent issues impacting the industry and be the voice of the industry.

The MII Alumni provides a way to reach the insurance professional community to seek feedback and/or participation in MII's future plans and initiatives. The industry and MII will be able to leverage on the Alumni for ideas, participation in collaborative projects or taskforce. In line with MII's strategic plan, Phase 1 (2021-2022) of the Alumni will focus on engaging members through networking activities and cultivating thought leadership for the industry with structured knowledge management activity. In Phase 2 (2023 onwards), the Alumni is set to build a steady and strong industry talent pipeline and providing advisory and technical know-how to the industry.
